LIST OF CONTENTS

Vol. 20A, No. 1, January 1986

William B. Tye	1	Rate base and rate of return methodologies for determining reasonable rates for captive rail traffic
Daniel Sperling and **Ryuichi Kitamura**	15	Refueling and new fuels: An exploratory analysis
Miles H. Sonstegaard	25	Economic evaluation for U.S. railroads
Chris Hendrickson	33	A note on trends in transit commuting in the United States relating to employment in the central business district
Dan B. Rinks	39	Revenue allocation methods for integrated transit systems
Julian Benjamin	51	A time-series forecast of average daily traffic volume
Bruce N. Janson, **Selwyn P. T. Thint**, and **Chris T. Hendrickson**	61	Validation and use of equilibrium network assignment for urban highway reconstruction planning
	75	Bibliographic section
	81	Forthcoming papers
	I	Software Survey Section

Vol. 20A, No. 2, March 1986

SPECIAL ISSUE

ROAD PRICING

Kenneth J. Button	85	Preface
Steven A. Morrison	87	A survey of road pricing
Peter K. Else	99	No entry for congestion taxes?
A. D. May	109	Traffic restraint: A review of the alternatives
A. T. Armstrong-Wright	123	Road pricing and user restraint: Opportunities and constraints in developing countries
J. A. L. Dawson and **I. Catling**	129	Electronic road pricing in Hong Kong

W. J. Harrison, C. Pell, P. M. Jones, and **H. Ashton** 135 Some advances in model design developed for the practical assessment of road pricing in Hong Kong

Thomas J. Higgins 145 Road-pricing attempts in the United States

Ward Elliott 151 Fumbling toward the edge of history: California's quest for a road-pricing experiment

M. J. H. Mogridge 157 Road pricing: The right solution for the right problem?

David Starkie 169 Efficient and politic congestion tolls

175 Bibliographic Section

181 Forthcoming Papers

I Software Survey Section

Vol. 20A, No. 3, May 1986

Said M. Easa 185 Assessing future management strategies in the Port of Thunder Bay

Fred L. Hall, Brian L. Allen, and **Margot A. Gunter** 197 Empirical analysis of freeway flow-density relationships

Tien-Fang Fwa and **Kumares C. Sinha** 211 A unified approach for allocation of highway pavement costs

Ilan Salomon 223 Telecommunications and travel relationships: A review

Kevin Bott and **Ronald H. Ballou** 239 Research perspectives in vehicle routing and scheduling

Ryuichi Kitamura and **Lidia P. Kostyniuk** 245 Maturing motorization and household travel: The case of nuclear-family households

261 Bibliographic section

269 Forthcoming papers

I Software Survey Section

Vol. 20A, No. 4, July 1986

N. Levine and **M. Wachs** 273 Bus crime in Los Angeles: I—Measuring the incidence

N. Levine and **M. Wachs** 285 Bus crime in Los Angeles: II—Victims and public impact

P. A. Viton 295 Quasi-optimal pricing and the structure of urban transportation

W. W. Recker, M. G. McNally and G. S. Root 307 A model of complex travel behavior: Part I—Theoretical development

W. W. Recker, M. G. McNally and G. S. Root 319 A model of complex travel behavior: Part II—An operational model

L. R. Foulds 331 TRANSYT traffic engineering program efficiency improvement via Fibonacci search

I Forthcoming Papers

V Software Survey Section

Vol. 20A, No. 5, September 1986

A. M. Rufolo 337 Cost effectiveness of articulated buses when passenger time is treated as a cost

L. G. Pol, T. G. Ponzurick and J. P. Rakowski 345 Sporting event ridership: The forgotten public transit market

F. Southworth, Y. J. Lee and D. Zavattero 351 A system model of primary truck route designation and terminals clustering

P. A. Viton 361 Air deregulation revisited: Choice of aircraft, load factors, and marginal-cost fares for domestic air travel

G. A. Hazelrigg and A. C. Busch 373 Setting navigational performance standards for aircraft flying over the oceans

T. F. Golob 385 A nonlinear canonical correlation analysis of weekly trip chaining behaviour

T. F. Golob, L. van Wissen and H. Meurs 401 A dynamic analysis of travel demand

I Forthcoming Papers

V Software Survey Section

Vol. 20A, No. 6, November 1986

P. H. Bly and R. H. Oldfield 415 The effects of public transport subsidies on demand and supply

Upali Vandebona and Anthony J. Richardson 429 Effect of checkpoint control strategies in a simulated transit operation

Gülgün Pöğün and Ahmet Şatir 437 Alternative bus scheduling policies for an exclusive bus lane

T. J. Lyons, J. R. Kenworthy, P. I. Austin and **P. W. G. Newman** 447 The development of a driving cycle for fuel consumption and emissions evaluation

C. C. Wright 463 A topological system for classifying and coding interactions between road users at junctions

I Forthcoming Papers

V Software Survey Section
